Pasul 3. După apăsarea butonului, veți fi redirecționați către pagina de autentificare de pe siteul Microsoft. Aici, utilizați numele de utilizator și parola contului pentru autentificare, ca în imaginile de mai jos. În prima pagină se cere adresa de e-mail, iar în cea de-a doua pagină se cere parola contului cu care vă autentificați.

Pasul 4. După autentificare, ca măsură de securitate, vi se va cere să vă verificați identitatea. Acest lucru constă în trimiterea unui cod secret pe un număr de telefon, pe care trebuie să îl introduceți. Pentru a realiza acest lucru, selectați în câmpul "Country code" (subliniat cu chenarul negru) valoarea "Romania (+40)", iar în câmpul "Phone number" (subliniat cu chenarul roșu) introduceți numărul dumneavoastră de telefon. Mai apoi apăsați pe butonul "Text me" pentru a primi prin SMS un cod secret de șase cifre.

După apăsarea butonului "Text me", în pagină mai apare un câmp suplimentar numit "Verification code". Introduceți în acest câmp codul primit prin SMS, iar mai apoi apăsați pe butonul "Verify code".

După terminarea acestui proces, nu se va cere din nou repetarea lui la autentificarea din același browser.

Pasul 5. După ce procesul de autentificare este complet, puteți explora resursele disponibile în cadrul Azure Education Hub. Pentru a vizualiza pachetele disponibile pentru descărcare, apăsați butonul "Software"

Pasul 6. Pentru a căuta un anumit program, puteți utiliza câmpul de filtrare, prin introducerea câtorva caractere (sau cuvinte) din numele pachetului în câmpul subliniat în imaginea de mai jos. Pagina va afișa doar pachetele care se potrivesc denumirii selectate.
